

## Caught Between Truck and Equipment

OSHA RELEASED A DIRECTIVE TO THEIR INSPECTORS RECENTLY THAT SHOWS STATISTICALLY WHERE OIL AND GAS OPERATIONS ARE HAVING ACCIDENTS. 3<sup>RD</sup> ON THAT LIST WAS "CAUGHT-BETWEEN". THAT CATEGORY IS WHAT IT SOUNDS LIKE. ALL OILFIELD EMPLOYEES MUST ASK THEMSELVES "AM I ABOUT TO PLACE MYSELF IN A BAD POSITION?" BEFORE DOING IT. THIS IS BECAUSE WE HAVE A LOT OF EQUIPMENT IN THE OILFIELD THAT CAN SMASH YOU!!!

BE WISE WHEN WORKING AROUND TRUCKS. MAKE SURE THAT TRUCK IS A SAFE DISTANCE FROM THE EQUIPMENT BEFORE YOU ENTER THAT SPACE. ALSO MAKE SURE THE DRIVER SEES YOU AND HAS CONTROL OF THAT VEHICLE. IT IS UP TO YOU TO REFUSE TO PLACE YOURSELF IN JEOPARDY.
