

Motivate your employees to work safely without gathering people for a safety meeting.

Originally, we thought to call our workbooks Safety Trainers...

This is because the powerful combination of visual learning and hands-on writing makes them effective without needing explanation.

We designed them so that Supervisors could grade their work and individually coach the student/ employee in correct safety procedures at opportune times. No meetings necessary.

This way you can maintain social distancing.

Order from www.GraphicSafety.com

(order early because we sometimes get swamped with orders!)
